

Atty. Dkt. No. 02CR092/KE

### REMARKS

Applicants respectfully request reconsideration of the present application in view of the foregoing amendments and in view of the reasons that follow.

No claims are requested to be cancelled.

Claims 1, 8, 11, 13, 16 and 19 are currently being amended.

No claims are being added.

This amendment changes claims in this application. A detailed listing of all claims that are, or were, in the application, irrespective of whether the claim(s) remain under examination in the application, is presented, with an appropriate defined status identifier.

Claims 1-20 remain pending in this application.

In the Advisory Action dated March 28, 2006, the Examiner maintained the rejection of Claims 1-20. The Examiner stated:

The main point the Applicant argues is that the conductor cited by the Examiner cannot be the rib structures claimed. However, the Examiner asserts that anything that separates two structures, such as conductors of Albert qualifies as a rib structure since it does not say in the claims or in the specification the specific function of the rib structure.

Applicants respectfully traverse the rejection.

However, to advance prosecution, Applicants have amended independent claims 1, 8, 11, 13, 16 and 19 to recite structural features related to the rib structures. Applicants respectfully submit that independent claims 1, 8, 11, 13, 16 and 19 are now patentable over the cited art. Accordingly, it is respectfully submitted that Claims 1-20 are patentable over the cited art.
